

OBJECTIVE VARIABLES -with their question(s)

- Gender - 1
- Age - 2
- Nationality - 3
- Current marital (partnership) status - 4
- Care of children/relatives - 5
- Type of higher education institution - 6
- Faculty subject area - 7
- Employment contract duration - 8
- Extent of employment (**contract working hours per week**) - 9
- Average weekly working hours - 10
- **Effort (based on 9 and 10): (Ratio 10/9)**
- Average gross monthly income - 11
- Leadership position - 12
- Influence on shaping academic policies at the department level - 13
- Another job outside higher education - 14
- Average weekly working hours outside higher education - 15
- Position (Seniority) - 16
- Job category/description - 17 (Non academic only)
- Highest level of education - 18 (Non academic only)
- Length of career in Czech higher education - 19 (Non academic only)
- Hours/week spent on teaching/research/activities related to externally funded research projects/organisational and administrative activities 20 - 23 (Academics only; summation of these hours is question 10)

SUBJECTIVE VARIABLES

- Adequacy of institutional resources needed to support academic work (facilities and technological equipment/research equipment/availability of scientific literature/personnel support/opportunities for personal and professional development/availability of resources for research funding) 24 - 29 (Academics only; averaged or not; both approaches)
- Performance pressure 30
- Perceived autonomy 31-36 (Average them; taking care of the reverse order: 31) ordenado; 32) invertido; 33) invertido; 34) ordenado; 35) ordenado; 36) invertido)
- Quality of leadership 37-40 (Average them)
- Sense of community at work 41 - 43 (Average them)
- Job satisfaction 44 - 48 (Average them)
- Work motivation 49 - 67 (Here there are several types of motivation; there will be values for each individual). Six variables:
 - i) Amotivation (49, 55, 61)
 - ii) Extrinsic-Social (50, 56, 62)
 - iii) Extrinsic-Material (51, 57, 63)

iv) Introjected (52, 58, 64, 67)

v) Identified (53, 59, 65)

vi) Intrinsic (54, 60, 66)

- Burnout (Emotional exhaustion) 68 - 71 (Average them)

- Vulnerability to burnout and occupational health issues 72-115 (outcome of four profiles/levels of vulnerability)
